

NorSap™ Deck Rails for NorSap 3500 and 2500

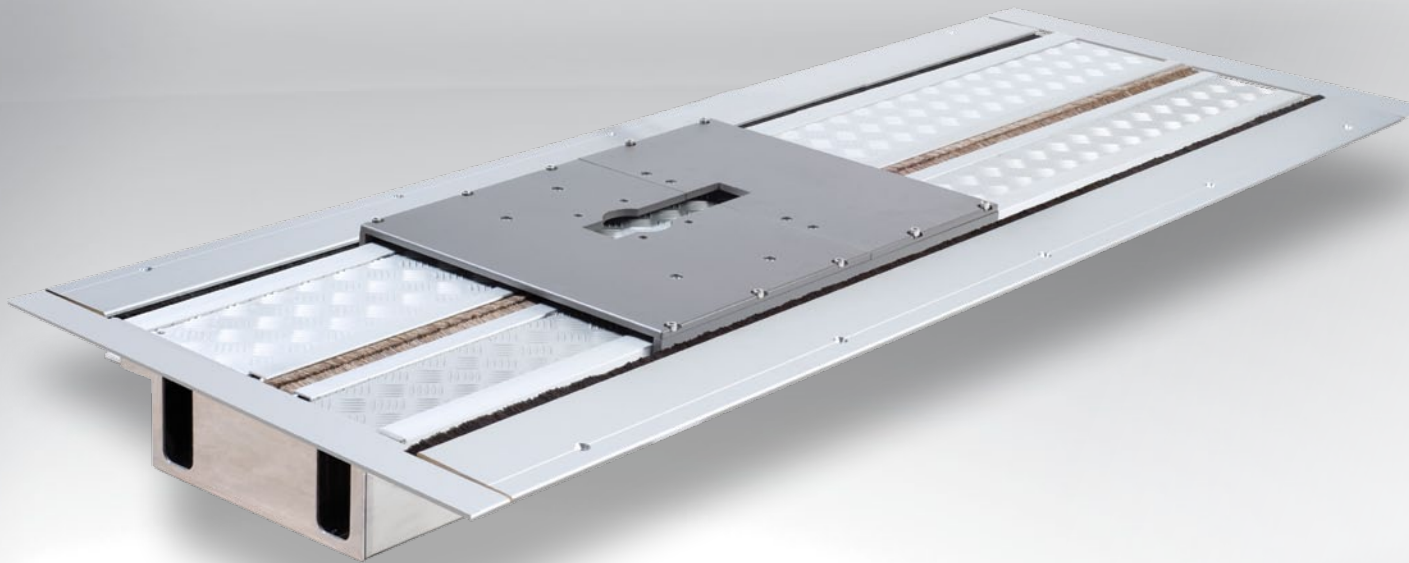

The NorSap series of deck rails makes navigation between different consoles easy.

This model is only offered with electrical positioning.

The standard lengths of this deck rails are 2000, 2500 and 3000mm.

Other lengths may be produced on request.

As shown in the photo beneath, there is a vast space for cabling all your equipment that needs to be controlled from your NorSap chair. This deck rail only comes as a flush version.
